Dear

I am writing to express my interest in the postdoctoral position at the Institute for Research in Fundamental Sciences (IPM). I am confident in my ability to contribute to the research and academic community at the School of Computer Science.

In my doctoral research, I focused on the differential machine-learning algorithm and its integration with other numerical methods. This experience has equipped me with strong analytical skills, proficiency in data analysis techniques, and a deep understanding of machine learning and data science. Under the guidance of Professor Parand, I was able to develop a comprehensive understanding of various concepts and enhance my research abilities.

I am particularly drawn to the postdoctoral position at the Institute for Research in Fundamental Sciences (IPM) due to its outstanding reputation in computer science. I am excited about the opportunity to join a prestigious institution where I can contribute my expertise and collaborate with fellow researchers.

Furthermore, I bring a diverse range of skills, including working with eye trackers, EEG, and programming. This unique skill set allows me to approach research questions from multiple angles and explore innovative methodologies. I am eager to apply these skills to contribute to ongoing projects and advance the field of computer science.

Thank you for considering my application. I have attached my curriculum vitae (CV) for your review. I look forward to the opportunity to discuss my qualifications further and demonstrate my strong fit for the postdoctoral position at IPM.

Sincerely,
Aida Pakniyat
