

To Whom It May Concern,

I am pleased to fully endorse Dr. Marzieh Esmaeili as an exceptional candidate for the position of Postdoctoral Researcher at the IPM School of Computer Science.

Over the past four years, I have collaborated with Marzieh during her doctoral studies in medical informatics at Tehran University of Medical Sciences.

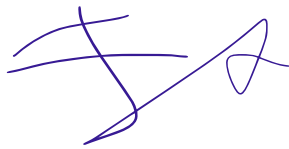

Marzieh demonstrated a profound interest in cutting-edge research topics throughout her doctoral program. Her doctoral thesis focused on the critical evaluation and enhancement of deep learning-based anomaly detection methods in medical imaging using advanced unsupervised techniques. This work underscores her adeptness in addressing intricate challenges and pushing the boundaries of knowledge in her field. Moreover, Marzieh's ability to grasp and engage with the complexities of biomedical imaging reflects her aptitude for interdisciplinary collaboration and effective communication with experts.

Marzieh's academic journey has been marked by notable accomplishments, including the publication of several impactful papers resulting from fruitful collaborations with esteemed colleagues. Additionally, her role as a scientific reviewer for esteemed journals highlights her commitment to upholding scholarly standards and advancing the field's collective knowledge.

In conclusion, I wholeheartedly endorse Dr. Marzieh Esmaeili as an exceptionally talented researcher with the intellect, diligence, and potential for continued productivity and innovation. I urge you to give her candidacy the serious consideration it deserves. Please do not hesitate to contact me should you require further information.

Yours sincerely,

Mohammad Sabokrou
