

March 04, 2024

**Dear Scientific Committee,**

It is an honor to write this letter of recommendation in support of Dr. Marzieh Esmaeili, the applicant for the position of Post-doc Researcher in the School of Computer Science, Institute for Research in Fundamental Sciences (IPM). I have known Marzieh for almost six years since she was a Ph.D. student in Medical Informatics at Tehran University of Medical Sciences. She was a top student in her department and proved to be hardworking and focused.

Due to her background in Computer Engineering and passion for advanced topics and challenging problems, she has successfully defended her Ph.D. thesis entitled "Design and development of an anomaly detection in medical images by GANs" with an excellent grade. So, I have found her quite smart, motivated, and enthusiastic.

On the whole, I strongly recommend Dr. Marzieh Esmaeili and I have no hesitation that she can fulfill all the requirements of your department and will be a successful individual in her future career. She is intelligent and also a good candidate, with strong research potential and achievement orientation. Should you have any further information that you might need, please feel free to contact me.

Sincerely,

  
**Vahid Changizi, PhD**

Professor of Medical Physics, School of Allied Medical Sciences, Tehran University of Medical Sciences

Head of Radiology and Radiotherapy Technology Department, School of Allied Health Sciences, Tehran University of Medical Sciences
