To whom it may concern,

I am pleased to write this reference letter for Dr Bahereh Hassanpour, to recommend her for the postdoctoral position at IPM.

I collaborated closely with Bahereh on a proposal for a Marie Skłodowska-Curie (MSCA) Fellowship and witnessed her dedication to research and academic excellence. I enjoyed working with her because of her good interpersonal and communication skills, as well as her technical knowledge in privacy and edge computing. Her expertise is evidenced by her publications, PhD dissertation, and our collaborative efforts on the MSCA proposal, demonstrating a deep understanding of complex concepts in these domains and a high level of proficiency in addressing research challenges.

Throughout our interactions, Bahereh has consistently demonstrated a strong work ethic, motivation, and determination to succeed. Her proactive approach to problem-solving and her ability to effectively communicate ideas make her a valuable asset to any research team.

I am confident that Bahereh will greatly contribute to the research initiatives at IPM and will succeed in the intellectually engaging atmosphere provided by your institution.

Please do not hesitate to contact me should you require further information.

Sincerely yours
Dr Tooska Dargahi
Senior Lecturer (Associate Professor) in Cyber Security
International Lead - Department of Computing & Mathematics
