

## Cover Letter

TO: The Head of School of Computer Science, Institute for Research in Fundamental Sciences (IPM).

Dear Professor,  
Greeting,

I am writing to express my keen interest in the non-resident researcher position at the School of Computer Science, Institute for Research in Fundamental Sciences (IPM). With a PhD in High Performance Computing and Distributed Computing from Universiti Putra Malaysia, coupled with two decades of experience teaching computer science at esteemed universities in Iran and abroad, I am confident in my ability to make a valuable contribution to the research initiatives at the School of Computer Science, IPM.

My proposed project, "Creating Blockchain-Powered Tools Enhanced by Artificial Intelligence for Evaluating Semantic Concordance in Scientific Documents," aims to develop a cutting-edge commercial product grounded in advanced theoretical concepts. This project holds immense value for both researchers and business stakeholders, given the growing demand for intellectual property within scientific and industrial communities. I firmly believe that the outcomes of this project will not only enrich academic journals but also have tangible impacts in the industry.

I am enthusiastic about the prospect of collaborating with the School of Computer Science, IPM, and actively participating in its research pursuits. My unwavering dedication, extensive experience, and fervor for advancing knowledge position me as a strong candidate for this role. I would be grateful if you could review my application and I am excited about the possibility of working together.

Thank you for considering my application. I eagerly anticipate the opportunity to contribute to the esteemed research environment at IPM.

Warm regards,  
Shamsollah Ghanbari
