

IRAN UNIVERSITY OF SCIENCE & TECHNOLOGY

To: Whom It May Concern

I am writing to enthusiastically recommend Dr. Kaveh Vaezi for the postdoctoral position at IPM. As a former colleague and roommate during our PhD program at Sharif University of Technology, I have had the privilege of knowing Kaveh both personally and professionally. His exceptional skills in performance analysis of communication networks, coupled with his strong mathematical background in queuing systems and Markov chains, make him an outstanding candidate for this role.

During our time together, I witnessed Kaveh's dedication to research on networked systems. His work demonstrates not only his analytical prowess but also his passion for tackling complex problems. His ability to approach challenges with creativity and rigor, supported by his deep understanding of mathematics, positions him well to excel in computer science research. Kaveh's expertise in queuing theory and stochastic processes further underscores his readiness for advanced academic work.

Beyond his technical abilities, Kaveh is a collaborative and team-oriented researcher. He has worked with diverse research teams both within and outside the country, showcasing his ability to contribute effectively to group efforts while excelling independently. His clear communication skills and professionalism make him a valuable asset to any research environment.

I wholeheartedly recommend Dr. Kaveh Vaezi for this position. His intellectual abilities, work ethic, and personal character are rarely found today, and I am confident he will make significant contributions to your program. Please feel free to contact me for further information.
