To Whom It May Concern,

I am pleased to recommend **Dr. Amin Foshati** for the postdoctoral position at the School of Computer Science, Institute for Research in Fundamental Sciences (IPM). I am an Associate Professor in the Department of Computer Engineering at Sharif University of Technology and had the opportunity to observe his academic progress during his doctoral studies.

Dr. Foshati took my graduate course *System-on-Chip Design* and achieved a score of 19.4 (out of 20), the second-highest in the class. I also served as a referee for his Ph.D. defense, where he delivered an excellent presentation that reflected both depth of knowledge and clarity of thought. His thesis was unanimously awarded an excellent mark by the committee, and he graduated as the top-ranked Ph.D. student among those admitted to our department in 2000.

Dr. Foshati has consistently demonstrated intellectual rigor, strong analytical skills, and academic distinction. I am confident that he will make valuable contributions to the research community at IPM.

Yours sincerely,
